Richard Western Ltd, D'Urbans, Framlingham, Suffolk IP13 9RP

Drill Fillers/Meal and Pellet Feeders

A Range of hydraulically driven drill fillers.
Available in 10-16 tonne models.

The Richard Western hydraulically driven hopper trailer is designed for livestock and arable duties. It is the ideal machine to be used for a seed drill tender or re-stocking feed on an outdoor pig unit. The hydraulic motor is controlled by a pull rope from the auger end of the filling auger. To give access to the top of the hopper, a ladder and mesh grid are provided. A waterproof cover is also supplied. DF12 & DF16 have a trough type hopper with a feed auger.

STANDARD FEATURES:

- Hydraulic driven unloading auger
- Hydraulic brakes
- Parking brake
- Roll over waterproof cover
- Ladder and mesh grid
- LED road lights with indicator ballast control
- Single or tandem axle option for DF10 model

Optional Equipment:

- Flashing beacon
- LED Work lights
- Centre divider - knife gate for each compartment
- Heavy duty mudguards
- Remote control complete with spool valve
- Extensions for DF10 hopper
- Auger tube extensions
- Air brakes for single axle DF10 model

Pusher Trailer Model	Volume/ Capacity	Body Length	Top Rail Height	Body Width	Auger Height
DF10	11.10(m ³)	4.07m	3.1m	2.29m	3.23m
DF10T	11.10(m ³)	4.07m	3.1m	2.29m	3.23m
DF10 with Extensions	12.90(m ³)	4.07m	3.39m	2.29m	3.37m
DF12T	12.20(m ³)	5.07m	2.85m	2.29m	2.84m
DF16T	16.00(m ³)	5.07m	3.30m	2.29m	2.84m
