BALE AND PALLET TRAILER
STRONG AND VERSATILE FLATBED TRAILERS

A range of tandem and tri-axle, flatbed trailers designed with an integrated platform and chassis to provide maximum strength and reduce twisting. All trailers have a 4.5mm steel chequered plate platform, an integrated strap storage box on the kerb side, and sockets front and rear for headboard and ladders. A removable 2ft headboard is standard and comes with sockets for a front bale ladder.

Available in 20 tonne model, you can customise the flatbed trailer to meet your needs. Trailers fitted with 445/45R19.5 wheels are available with a low rider platform. The reduced platform height is ideal for maximising pay-loads or mounting livestock containers.

STANDARD FEATURES

- 4.5mm chequer plate floor
- 2' headboard
- Hydraulic brakes with LSV
- LED road lights
- Sprung drawbar
- Strap box
- LED side marker

OPTIONAL EQUIPMENT

- Bale ladders
- Additional length per trailer foot
- Raised edges
- Drop side walkway
- Hydraulic box pusher
